EDUCATION

VIT Bhopal University

Sept 2024 – Present

B.Tech Computer Science & Engineering — GPA: **8.86**

EXPERIENCE

Tech Team Member — UX Club, VIT Bhopal

June 2026 – Present

- Contributing to UI/UX-driven technical initiatives; collaborating on design systems and frontend implementations for club projects and events.

TECHNICAL SKILLS

Languages: Python, JavaScript/TypeScript, Java, C++, SQL, HTML/CSS

Frameworks & Tools: React, Next.js, FastAPI, Node.js, TensorFlow, OpenCV, D3.js, Drizzle ORM, Tailwind CSS, PyMuPDF, Figma

Platforms & Services: NeonDB, Clerk, Vercel, OpenRouter, Claude API, Firebase, MySQL

Core Concepts: DSA, OOP, DBMS, Computer Networks, Machine Learning, LLM Integration

PROJECTS

AntimAI | Next.js 14, TypeScript, NeonDB, Drizzle, Clerk, OpenRouter 🌐

2026

- Post-death administrative assistant generating state-specific checklists and official correspondence (bank letters, insurance claims, government notifications) for bereaved Indian families via a Llama 3.3 LLM pipeline.
- Engineered an AI fallback queue — on HTTP 429, silently chains to Gemini 2.5 Flash / Mistral Nemo for 100% uptime; outputs rendered to Unicode-safe PDFs via `@react-pdf/renderer`.

Suraksha | React 18, FastAPI, Claude API, PyMuPDF, PostgreSQL 🌐

2026

- AI-powered regulatory compliance platform for Indian banking: ingests RBI/SEBI circular PDFs via PyMuPDF, extracts structured rules with Claude Sonnet, converts to Measurable Action Points (MAPs), and auto-routes tasks to IT Security, Risk Management, or Operations.
- Conflict Checker detects contradictions between new and existing regulations; Verification Agent auto-flips task status Pending → Verified/Failed by reading system logs — visualised with Recharts dashboards.

Real-Time Drowsiness Detection System | Python, TensorFlow, OpenCV, dlib 🌐

Oct 2025

- CNN-based detector achieving **84.9% accuracy** (82.3% val) using dlib's 68-point facial landmarks fused with EAR thresholding; real-time alerting at 30 FPS with Float16 mixed-precision inference (2–5ms latency).
- Multi-threaded priority audio alert system; trained on 27,000+ images across diverse demographics and lighting conditions.

SmartTransit | JavaScript, React, Firebase, Google Maps API 🌐

Sep 2025

- Smart public transit platform with real-time route optimisation, live vehicle tracking, and commuter analytics built on Firebase and Google Maps API; interactive frontend for scalable urban transport visualisation.

OPEN SOURCE

GirlScript Summer of Code (GSSoC) 2025 — Ranked **under 1500** nationally; delivered bug fixes, security vulnerability reports, and documentation patches across full-stack and AI open-source repositories.

ACWOC26 — Android Club, VIT Bhopal — Awarded Certificate of Recognition for outstanding contributions to the Android Club open-source programme.

ACHIEVEMENTS & CERTIFICATIONS

Smart India Hackathon (SIH) 2025 — College-level winner; **Top 45 of 950+** teams nationally.

SolVIT Hackathon 2025 — Qualified Round 2 among **150+ teams**; delivered working prototype within competition duration.

Google — *The Bits and Bytes of Computer Networking* — **NPTEL IIT Kharagpur** — *Cloud Computing, Marketing Analytics*
